

# BIKE STANDS

High-quality bike storage

The flexible bike stands of the BIKE LINE are ideally suitable for sports shops, rentals, depots or for the private sector.

The 3-point fixation of the front wheel ensures a stable hold of the bicycles. The single modules can be easily combined on a rail system. So you can store a large number of bicycles in a space-saving and flexible manner.

The stable construction of powder-coated and hot-dip galvanized steel guarantees a long service life.

## BIKE STAND

The universally applicable bike stand for single use for different bike models and tire widths (max. 65 mm). The 3-point fixation of the steel frame ensures that the bike is securely held.

	Length x Width x Height	Tire width	Capacity*	Item-No.
BIKE	655 x 510 x 395 mm	max. 65 mm	1	1082097

## BIKE STAND PLUS

stable tilting arm

for an extra strong hold of the front tire

The universally applicable bike stand for single use for different bike models and tire widths. The BIKE STAND PLUS scores with an additional tilting arm, which fixes the front wheel in a particularly stable manner.

	Length x Width x Height	Tire width	Capacity*	Item-No.
BIKE	815 x 510 x 395 mm	max. 80 mm	1	1082098
FATBIKE	815 x 510 x 395 mm	max. 126 mm	1	1082367
